### Explanation

A USGA® Course Rating is an evaluation of the playing difficulty of a golf course compared with other rated courses, for the purpose of providing a uniform basis on which to compute USGA® Handicaps. A USGA® Course Rating is a service mark owned by the USGA and may be used only in connection with the USGA Handicap System.

A USGA® Yardage rating is the evaluation of the playing difficulty of a course based on the USGA® Yardage Rating Formula. It is the score a scratch golfer, when on his game, is expected to make when playing a course of average difficulty.

A USGA® Course Rating is determined by applying the playing length of the course to the Yardage Rating Formula to obtain a USGA Yardage Rating. The USGA® Yardage Rating is then modified by the authorized Golf Association's Course Rating Committee to take into account the obstacle difficulty of the course.

A USGA® Slope Rating is an evaluation of the degree of difficulty of the course for golfers with USGA handicaps greater than zero. Average USGA Slope ratings are 113 for men and women.

### Computation

$$\text{USGA Yardage Rating} = \frac{\text{Effective Playing Length of course}}{220 \text{ (180 for women)}} + 40.9 \text{ (40.1 for women)}$$

$$\text{USGA Course Rating} = \text{USGA Yardage Rating} + \text{Modification for Obstacles}$$
