# the ESSENTIALS

## TaylorMade Burner Fairway Woods (\$240)

Available in two versions – High Launch and Tour Launch – the next generation of Burner fairway woods share several key performance elements, such as TaylorMade's Dual Crown and Ultra-Thin Wall technologies. And the two versions are different: the High Launch is engineered to make it easy to launch the ball on a towering, long-carrying flight at average swing speeds; the Tour Launch is engineered to promote the kind of lower, penetrating and workable ball flight that skilled players with higher swing speeds prefer.

Three Burner High Launch fairway woods are available in 3 (15-degree), 5 (18-degree) and 7 (21-degree) woods, and three Tour Launch fairway woods are available: TS (Tour Spoon) at 13 degrees, T3 at 14.5 degrees and T5 at 17.5 degrees. [www.taylormadegolf.com](http://www.taylormadegolf.com)

## KZG "Q" Fairway Woods (\$259)

The perfect partner to the "Q" driver, the "Q" fairway wood delivers a high moment of inertia (MOI) and pushes the coefficient of restitution to the legal limit.

The "Q" features an extra durable maraging steel cup face that maximizes distance. The body profile is engineered for maximum MOI, creating extra forgiveness and distance. The "Q," with its distinctive red tail, is available in 3 (15 degrees), 4 (17 degrees), 5 (19 degrees) and 7 (23 degrees) models. [www.kzg.com](http://www.kzg.com)

## Trion:Z Broadband (\$24.95)

The Broadband wristbands have a more traditional sports wristband look. They incorporate the same Trion:Z technology of minus-ion producing minerals and twin 1000 gauss magnets into a sports band that is both stylish and functional. Its wide bandwidth provides extra moisture absorption, making it ideal for strenuous sports and activities. The Broadband is available in five colors. [www.trionz.com](http://www.trionz.com)
