

the HOLIDAY GIFT GUIDE

Cleveland Classic Putter (\$69 each)

Inspired by the classics but crafted for performance, the new Cleveland Classic putters are designed with a precision milled face that provides a soft yet solid feel throughout the stroke. All three models have heel-toe weighting, which increases the moment of inertia for added forgiveness, while helping to limit unwanted twisting on off-center hits. All models are manufactured from 17-4 Stainless Steel and come with a hand polished satin finish, which minimizes glare and provides a long-lasting and durable finish.

Glenmorangie Signet Whisky (\$205)

The Signet is a fusion of unique elements, whose secrets are known only to the company's whisky creators. Rare and ancient whiskies are drawn from Glenmorangie's archive, including 1974 whisky from their original maltings. And rare and exclusive ingredients, including single estate barley and high roast "chocolate," are used to create its rich, sweet flavors, which feature hints of chocolate and coffee. www.glenmorangie.com

KZG Forged Tour Evolution Irons (\$159 per club)

Designed specifically for the touring professional and competitive player, the KZG Forged Tour Evolution irons have a unique combination of both forgiveness and precision. The Tour Evolutions adopted the concept of KZG's very popular Evolution irons with its seamless transition from cavity back to blade, as each iron head is 10 percent different from its adjacent one. Unlike the original Evolution, the Tour Evolution has a smaller head, minimal offset, raised center of gravity, thin cambered sole and Tour-inspired heel. The Tour Evolutions are specifically designed for those carrying a 6 handicap or less. The Tour Evolutions are available in right hand only (3-PW) and in a satin polish or high chrome finish. www.kzggolf.com
