Adams Idea Pro Gold

www.adamsgolf.com

Appearance	8.0	Consistency	8.2
Forgiveness	8.2	Distance	8.2
Feel	8.3	Value	8.2

Unique Features: Designed for better players, the Idea Pro Gold Hybrid Iron set features two shallow Boxer hybrids with six 8620 carbon steel forged cavity-back irons finished with mirror-chrome plating that have grooves with more volume than the original Idea Pro. The mirror-chrome plating and the constant offset provide a traditional look.

Tester Comments: Love the look & feel of these irons ... Easiest clubs to be consistent with ... The hybrids are fantastic. They have been very accurate for me when I put a good swing on them.

\$799 (steel)

Bridgestone J36 Combo

www.bridgestonegolf.com

Appearance	8.5	Consistency	8.3
Forgiveness	8.5	Distance	8.3
Feel	8.8	Value	8.2

Unique Features: Bridgestone's new J36 combo set is exactly what mid-handicappers have been looking for. No longer must golfers choose between forgiveness and playability. This progressive set is forgiving on longer shots and workable on shorter shots. With its tapered sole design, these clubs will turn you into a shotmaker with every club.

Tester Comments: Best irons I have ever played period! ... These are very solid feeling clubs and very workable ... All clubs in set are consistent and easy to hit.

\$899 (steel)

Callaway X-Forged '09

www.callawaygolf.com

Appearance	8.5	Consistency	8.2
Forgiveness	8.8	Distance	8.0
Feel	8.5	Value	8.0

Unique Features: The X-Forged iron set was made with considerable input from Callaway's Tour pros, and it shows. Forged from soft, responsive carbon steel, the X-Forged features a thin topline, narrow sole, and short blade length for maximum workability. The club's Progressive Dual Notch Weighting and Flighted CG Design creates a lower, Tour-favored trajectory.

Tester Comments: ... The looks and feel of the club is excellent ... I hit em' high and can easily work the ball left or right. I would definitely put these on your list to try if you're in the market for a player's iron.

\$599 (steel), \$699 (graphite)

Cleveland CG7

www.clevelandgolf.com

Appearance	8.0	Consistency	8.3
Forgiveness	8.3	Distance	8.5
Feel	8.2	Value	8.2

Unique Features: Building upon last year's CG Gold iron, Cleveland has made the CG7 even better. Cleveland's 360° Gelback Technology produces superior feel across the face with its injection molded insert in the cavity and base of the club. Dynamic Microcavity Technology progressively optimizes the CG from club to club, stressing distance and ball speed in longer irons and accuracy in shorter irons.

Tester Comments: Thin topline and less-offset make for confident setup at address ... The irons are very workable, have a solid feel ... Best Cleveland irons yet.

\$750 (steel), \$850 (graphite)

Cobra Pro CB

www.cobragolf.com

Appearance	8.0	Consistency	8.3
Forgiveness	8.2	Distance	8.0
Feel	8.5	Value	8.0

Unique Features: With a soft, forged carbon steel clubhead, a thin topline, and minimal offset, the King Cobra Pro CB feels great at impact and even better when the ball lands pin-high. The Pro CB's short hosel encourages a higher ball flight and soft landing. The round cambered sole improves contact from any lie. This set is ideally suited to improving mid-handicap players that want to take the next step.

Tester Comments: it has been a joy to adjust to the increased distance I get from these clubs ... If you want a blade iron with the feel of a cavity back, this is it ... Ball feels solid coming off clubface.

\$1249 (steel)

KZG Forged Tour Evolution

www.kzggolf.com • \$1249

Appearance	8.3	Consistency	8.3
Forgiveness	8.2	Distance	8.2
Feel	8.3	Value	8.0

Unique Features: With its new Forged Tour Evolution irons, KZG has taken everything that was good about its Evolution irons and optimized it for the serious player. The clubhead has been reduced in size and has been given a thinner sole and a minimal progressive offset to give golfers the freedom to work every shot. The cambered sole reduces spin for a more penetrating ball flight and increased shot control.

Tester Comments: Quality materials and designed with playable specifications... The forged, thin lines help set up the shot in the purest form ... I HIGHLY recommend these irons for anyone.
