GF 2: THE ULTIMATE CUSTOM FITTED FAIRWAY WOOD FROM KZG

No need to practice endless hours on the driving range fixing your slice or hook. KZG, the #1 Custom ProLine, has engineered a solution — the GF 2 Fairway Woods with two adjustable weight ports.

When in the hands of a Professional ClubFitter, the GF 2 weight portals may be adjusted to fit any player's desired ball flight to achieve maximum performance. "Tweaking for perfection" is an avid golfer's dream, and with the GF 2 you can adjust ball trajectory, the center of gravity, swing weight, correct a draw or fade bias, and even alter spin rate!

With seven different weight options and two weight ports, over 100 adjustments can be made to any player's shot pattern. "Our engineers and researchers spent years developing a fairway wood that can dramatically affect launch characteristics," reports Jennifer King, President of KZG. "The GF 2 was the solution and when fitted by a Professional ClubFitter the performance is simply unbeatable."

Professional ClubFitters from around the world have given the GF 2 Fairway Woods rave endorsements:

"The GF 2 has increased our customers' precision, shaving strokes off their handicap".
Andreas Lind, Master ClubFitter
Custom Golf Norway, Snaroya, Norway
Rated: World's Top 100 Professional ClubFitters

"I was amazed that avid golfers can achieve such a dramatic improvement in their game with just a few changes in the weighting of the GF 2"
Mickey Russell, Professional ClubFitter
Pro Am Golf, Yorktown, VA
Rated: World's Top 100 Professional ClubFitters

"With the GF 2 I have been able to fit golfers of all handicaps and achieved greater player precision".
Doug Osnes, Professional ClubFitter
Camber Golf Equipment, Kelowna, BC, Canada
Rated: World's Top 100 Professional ClubFitters

The GF 2 Fairway Woods classic, compact head features a high-tech face insert made from KZG's proprietary alloy similar to maraging steel but with greater tensile strength and elasticity, giving players explosive performance from the tee and the fairway.

KZG equipment is only available through the finest retail facilities with certified Professional ClubFitters on staff. KZG's program of partnering with only the finest Professionals to fit its award winning equipment has catapulted KZG to the position of the #1 Custom ProLine. KZG's comprehensive selection of premium golf equipment includes the finest drivers, fairway and utility woods, irons, wedges and putters to allow the Professional to fit every player regardless of skill, strength, size and budget.

For additional information on KZG products and services, or to locate a KZG dealer, please visit www.kzg.com or call (800) 200-8800.

There is nothing like golf in December.
