KZG Gemini Fairway Woods

OVERALL MEMBER RATING 8.5

The Gemini fairway woods use KZG's twin-face technology to create an expanded sweetspot and maximum forgiveness. This technology joins an inner face to the perimeter of the outer face plate to produce consistent quality shots. Also unique to the Gemini fairway woods is a "Uni-Size" body, meaning the face depth and body size is uniform regardless of the loft. Available in 15-, 19- and 23-degree lofts with a choice of black or steel blue clubhead. For more information, contact: KZG, 800-200-8800, www.kzgolf.com. \$269 graphite/\$239 steel.

Clarence Oarr, St. Johnsville, NY: "Using the Gemini 3-wood off the tee, I found the distance and accuracy to be equal to that of my current driver."

Doug Cromer, Burton, MI: "I like the feel and balance, along with the ability to control a fade or draw."
