

THE STANWOOD CUP

Each IGA member club may enter one 3-man team into The Stanwood Cup competition which is played during the Men's State Amateur Championship. The total of the two (2) low scores from each day will be used to determine the winner. Team members must have their handicaps at the club for which they are playing. ***If a player has his handicap at more than one club, he must choose what club he wished to play for prior to the 1st round.** The low handicap player at each member club will be designated the team captain. It will be his responsibility to register the team with the starter or at the registration table before teeing off on the first day of the competition. Lists of players eligible from each member club will be posted at the host club.
